COMMUNITY ALERT SYSTEM

The West Los Angeles Community Police Station has created a Community Alert System to address the fear and incidence of crime and to enhance public safety. In partnership with the West Los Angeles Community Police Advisory Board and the West Los Angeles Community Police Station's Reserve Police Officers, an Email System is now available. The system's purpose is to notify West Los Angeles business people and residents of vital information concerning criminal activity in their neighborhood. To make West Los Angeles a safer community, your community policing partnership is requested. Please consider completing this form and asking others to also help us by adding their information. Your address and other information enables us to utilize our existing map boundaries so that specific crime information affecting your neighborhood can be forwarded. Your personal information will be kept confidential and only used by the Police Department for this database.

If you have questions or suggestions, please telephone Police Officer Alex Rodriguez at (310) 575-8431 or myself at (310) 575-8400. Thank you for your community policing contributions, problem-solving efforts and for being our public safety partner.

RICHARD C. WEMMER, Captain
Commanding Officer
West Los Angeles Community Police Station
